ABOUT ME:

As an aspiring coder and computer engineering student, I possess a strong foundation in programming languages such as C, C++, Java, and Python. My proficiency lies in C++ with a good understanding of Data Structures and Algorithms. I am currently working towards obtaining a certification in web development, which is expected to be completed in September 2023.

During my academic journey, I have maintained a consistent academic record, demonstrating my dedication to learning and improving my knowledge. I am an active participant in group activities and possess effective communication skills, enabling me to engage effectively in collaborative projects.

I believe in honesty and take pride in my work ethic. I am committed to continuous self-improvement and adaptability, which I consider essential for success in the dynamic field of computer engineering.

I am eager to contribute my skills and enthusiasm to make a positive impact in the technology industry.
